

NVFC U11 Streamed Team Program

Overview

NVFC is participating in the U11 4 District Program, also known as “U11 Streamed Teams”. The U11 Streamed Teams will be comprised of our stronger players who have the potential to play competitively in the U11 4 D Program. The number of U11 Streamed Teams formed each year will vary each season depending on the results of our Player Evaluation Process.

The teams will play in the 4 District Soccer League in an interlocking schedule with teams from the North Shore, Burnaby, Vancouver, and Richmond. The number of Streamed Teams formed will depend on the numbers of players interested in participating in this program, their skill levels and the overall skill level of the entire age group. Our U11 Streamed Teams will be balanced; i.e., equal strength. The remaining U11 players will play in the N.S.Y.S.A. House League with games strictly on the North Shore.

The emphasis is on player development for all U11 teams. Game scores must be reported for monitoring purposes only and will never be published. All players can expect to receive equal playing time.

Players will be placed on U11 Streamed Teams based on the results of the Player Evaluation Process. The evaluation process gives consideration to a player’s skill level, athletic ability, and playing ability. A player and his parents/guardians should consider the attitude required as well as the time and effort commitment involved with a streamed team.

U11 Streamed Team coaches, parents and players can expect:

- Games to be played on and off the North Shore
- Team practices to be held twice a week
- Team participation in tournaments possibly over the summer and on holiday weekends
- Team practices occasionally over the summer
- Player participation in additional outside player development to be encouraged.
